Meetings are held the first Tuesday of each month.

Organized Parent Education Network (OPEN)

OPEN invites Solon parents, school professionals and interested community members to participate in educational seminars and networking meetings to address the problems that can interfere with a student's school success. Topics will include special education issues, mental health as well as other concerns that prevent students from performing according to their individual potential. The goals of OPEN are: improving communication between parents and professionals, providing an information source for parents, extending parent support for academic and social concerns, and instilling school and community awareness of related issues.
