**** Please have your child bring their
shoebox prior to 12/19**

12/20- end of 2nd quarter

12/21 - 1/4- No School- Winter
Break

A PEEK AT THE NEXT WEEKS

Math: Your child has been learning various strategies for subtracting two-digit numbers, including the standard algorithm, using place value models and compensation. In topic 6, students will become proficient in solving two-step addition and subtraction word problems. Topic 7 will review both addition and subtraction word problems.

Literacy: November and December have been exciting months in reading! Students have been getting to know the main characters in their books and thinking deeply about character feelings, traits, and how they've changed through the course of their books.

They will be using what they know about their characters to write opinion and persuasive pieces. Students will write letters to their peers to persuade each other that their favorite books are worthy of awards!

Social Studies/science:

Economics is wrapping up just before winter break. Our next science unit of study will be Forces in Motion. This will begin when we return in January.
