

### **GENERAL SHS SUPPLY LIST**

Solon High School teachers will post on their individual web pages a list of any course-specific supplies students need for individual classes at the start of school. All Solon High School students taking math at the Algebra I/Transitional Algebra level and above will need to have a TI-84 Plus calculator this year.

The following list is a good guide for the general supplies that students need at the high school:

- 3-ring binders (size determined by teacher)
- Divider tabs for binders
- Spiral notebooks (at least 150 pages for some classes)
- Blue, black & red pens
- Pencils
- Different colored highlighters (up to 5 different colors)
- Notebook paper
- USB portable storage device
- Colored pencils (some history teachers require these but not all)
- Calculator – TI-84 Plus for all SHS students taking Algebra I/Transitional Algebra and above
- Book covers
- Scissors
