Name _____

Add and Subtract Within 10

Topic **2**
© Fluency
Practice/Assessment

A

Give each answer.

1. $5 + 1 =$ _____

2. $2 + 8 =$ _____

3. $6 + 3 =$ _____

4. $6 - 1 =$ _____

5. $5 - 2 =$ _____

6. $4 - 1 =$ _____

7. $5 + 5 =$ _____

8. $2 + 2 =$ _____

9. $3 + 3 =$ _____

10. $5 + 2 = 2 +$ _____

11. $3 + 6 =$ _____ $+ 3$

12. $9 + 0 = 0 +$ _____

13. $4 + 3 =$ _____

14. $2 + 3 =$ _____

15. $5 + 4 =$ _____

16. $6 + 2 = 8,$
so $8 - 2 =$ _____

17. $3 + 7 = 10,$
so $10 - 3 =$ _____

18. $4 + 5 = 9,$
so $9 - 5 =$ _____

19. Choose **Yes** or **No** to show if 4 will make each equation true.

$5 + ? = 9$ Yes No

$10 - ? = 7$ Yes No

$? + 1 = 6$ Yes No

$8 - ? = 4$ Yes No

Name _____

Add and Subtract Within 10

Topic **2**
© Fluency
Practice/Assessment

8

Give each answer.

1. $2 + 5 =$ _____

2. $5 + 4 =$ _____

3. $4 + 6 =$ _____

4. $8 - 5 =$ _____

5. $3 - 2 =$ _____

6. $7 - 4 =$ _____

7. $1 + 1 =$ _____

8. $4 + 4 =$ _____

9. $3 + 3 =$ _____

10. $5 + 3 =$ _____ $+ 5$

11. $6 + 2 =$ _____ $+ 6$

12. $4 + 1 = 1 +$ _____

13. $4 + 2 =$ _____

14. $2 + 3 =$ _____

15. $3 + 4 =$ _____

16. $3 + 6 = 9$,
so $9 - 3 =$ _____

17. $5 + 2 = 7$,
so $7 - 2 =$ _____

18. $8 + 1 = 9$,
so $9 - 8 =$ _____

19. Circle each sum or difference that equals 8.

$10 - 2$

$4 + 4$

$9 - 3$

$7 + 2$

$5 + 3$

$8 - 0$

Understand Vocabulary

1. Circle True or False.

$10 + 5 = 15$ is a
doubles-plus-1 fact.

True

False

2. Circle True or False.

In the equation below,
8 is the whole.

$$10 + 8 = 18$$

True

False

Word List

- doubles-plus-1 fact
- doubles-plus-2 fact
- open number line
- whole

3. Write a doubles-plus-1 fact.

4. Write a doubles-plus-2 fact.

5. Show 15 on the open number line.

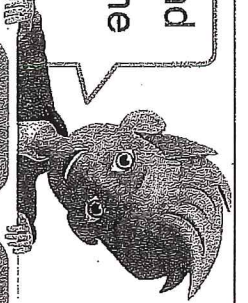

Use Vocabulary in Writing

6. How can you use a doubles fact to help you solve $7 + 8 = 15$. Explain.

Name _____

Color these sums and differences. Leave the rest white.

$9 - 5$	$8 - 4$	$1 + 3$	$10 - 3$	$4 + 3$	$1 + 6$	$7 - 1$	$9 - 3$	$5 + 1$
$2 + 1$	$6 - 2$	$7 - 4$	$5 + 2$	$9 - 7$	$7 - 0$	$6 - 0$	$6 + 2$	$2 + 4$
$8 + 2$	$10 - 6$	$2 + 6$	$7 + 0$	$6 + 3$	$10 - 3$	$4 + 2$	$6 + 0$	$10 - 4$
$4 + 4$	$3 + 1$	$4 - 3$	$8 - 1$	$4 + 5$	$6 + 1$	$8 - 2$	$2 + 1$	$9 + 1$
$8 - 7$	$4 + 0$	$6 + 4$	$9 - 2$	$3 + 4$	$2 + 5$	$3 + 3$	$6 - 1$	$6 + 3$

The word is _____

Understand Vocabulary

1. Cross out the numbers below that do NOT show the difference for $18 - 8$.

16 14

11 10

2. Cross out the problems below that do NOT show a doubles fact.

$4 + 5$ $6 + 4$

$4 + 4$ $5 + 4$

Word List

- difference
- doubles fact
- fact family
- related facts

3. Write the related fact.

$$12 - 7 = 5$$

___ ○ ___

4. Write the related fact.

$$10 + 9 = 19$$

___ ○ ___

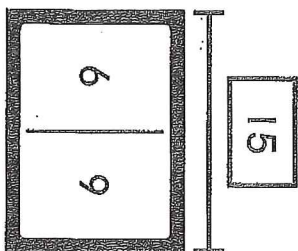

5. Write the related fact.

$$6 = 14 - 8$$

___ ○ ___

Use Vocabulary in Writing

6. Write equations using the numbers shown in the model. Then explain what the equations are called using a word from the Word List.

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$
 $\underline{\quad} - \underline{\quad} = \underline{\quad}$
 $\underline{\quad} - \underline{\quad} = \underline{\quad}$

Understand Vocabulary

Circle the correct answer for each question using the image at the left.

Blue	Red	Green
		

1. Green shows ____ tally marks.
3 4 5 6

2. The picture is called a _____.

picture graph tally chart survey tally mark

- Word List**
- data
 - picture graph
 - survey
 - tally chart
 - tally marks

Fill in the blanks using words from the Word List.

3. This graph is called a _____.

Favorite Drinks			
	Milk		
	Juice		

4. "What is your favorite drink?" could be the _____ question for this graph.

5. You can use the _____ to answer questions about the graph.

Use Vocabulary in Writing

6. Write a story problem using at least two words from the Word List. Draw and write to solve.

Name _____

Set A

You can collect and sort data into a table.

Jimmy asks 10 friends what meal takes the longest to eat.

Longest Meal

Breakfast	Lunch	Dinner
III	I	IIII I

Each I is one friend's answer.

The graph shows Jimmy's data using objects.

Longest Meal						
	Breakfast					
	Lunch					
	Dinner					

Each  is one friend's answer.

6 friends said dinner was their longest meal.

Use the data from Jimmy's survey to solve each problem.

Reteaching

1. How many friends said dinner was their longest meal?

_____ friends

2. How many friends said breakfast or dinner was their longest meal?

_____ friends

Write an equation to answer each question.

3. How many more friends chose breakfast than lunch?

_____ = _____ more

4. How many more chose dinner than breakfast?

_____ = _____ more

You can use data in a picture graph to ask and answer questions.

Mari asks 16 of her friends for their favorite activity. She records their answers in a graph.

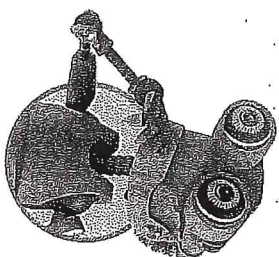

Favorite Activity									
Soccer									
Tennis									
Running									

Thinking Habits

Make Sense and
Persevere

What are the amounts?

What am I trying to find?

Use Mari's picture graph to answer each question.

5. How many people chose soccer or running?

_____ = _____ OR _____ + _____ = _____

6. Mari asks some more friends and they all chose tennis as their favorite activity.

Now the number of students who like tennis is the same as the number of students who like soccer or running.

How many more friends did Mari ask?

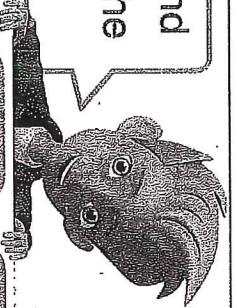

_____ more

Explain how you know.

Name _____

Color these sums and differences. Leave the rest white.

Fluency Practice Activity

I can ...
add and subtract within 10.

© Content Standard 1.OA.C.6

$4 + 2$	$5 - 3$	$0 + 6$	$6 + 2$	$8 + 0$	$7 + 1$	$8 - 3$	$7 - 2$	$1 + 4$
$9 - 3$	$10 - 3$	$8 - 2$	$10 - 2$	$2 - 2$	$2 + 6$	$2 + 3$	$2 + 2$	$6 - 1$
$10 - 4$	$6 + 0$	$3 + 3$	$1 + 7$	$10 - 7$	$3 + 5$	$0 + 5$	$5 - 0$	$3 + 2$
$5 + 1$	$1 + 1$	$2 + 4$	$5 + 3$	$9 - 5$	$9 - 1$	$4 + 1$	$1 + 2$	$9 - 7$
$7 - 1$	$1 - 1$	$6 - 0$	$8 - 0$	$4 + 4$	$0 + 8$	$10 - 5$	$9 - 0$	$5 - 2$

The word is _____

Understand Vocabulary

1. Circle the number that shows the ones digit.

106

2. Circle the number that shows the tens digit.

106

Word List

- column
- hundred chart
- number chart
- ones digit
- row
- tens digit

3. Circle a column in the part of the hundred chart.

87	88	89	90
97	98	99	100

4. Circle a row in the part of the number chart.

107	108	109	110
117	118	119	120

5. Circle the number on the chart that is 1 more than 101.

97	98	99	100
101	102	103	104

Use Vocabulary in Writing

6. Fill in the number chart to count on from 96 to 105. Then explain the difference between a number chart and a hundred chart and label the chart using words from the Word List.

91	92	93	94	95			
					106	107	108
					109	110	

Understand Vocabulary

1. Write the number word that is one more than fourteen.

2. Write the number word that is one fewer than eighteen.

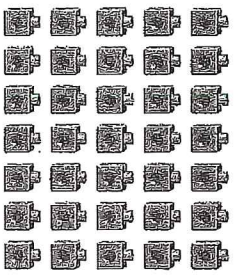

Word List

- fewer
- more
- ones
- tens

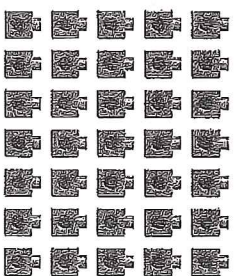

3. Circle the cubes that make 2 tens.

4. Circle the cubes that make 1 ten and 5 ones.

5. Circle the cubes that make 3 tens and 3 ones.

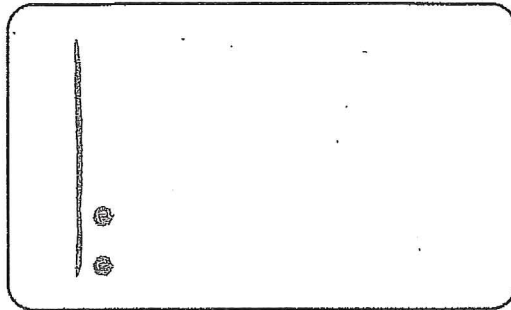

Use Vocabulary in Writing

6. Write a story problem for a number between 11 and 19. Then solve by using words from the Word List. Show your work.

3. Rachel's school has 34 soccer balls.

Rachel starts drawing a model for the soccer balls. Use lines and dots to finish her drawing.

Explain what the drawing shows.

4. Rachel's school has 29 basketballs. How many ways could the basketballs be grouped as tens and ones? Make a list to show all of the ways.

Tens	Ones

_____ ways

5. The school has 33 hula-hoops. Rachel says there are 4 ways to group the 33 hula-hoops as tens and ones.

Do you agree?

Circle **Yes** or **No**.

Explain your answer. Use numbers, pictures, or words.

Understand Vocabulary

1. Compare the numbers.
Circle the number that
is more.

26 29

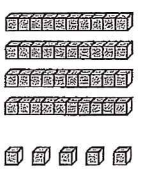

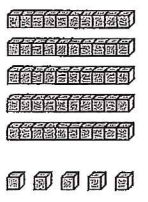

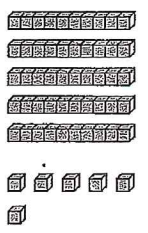

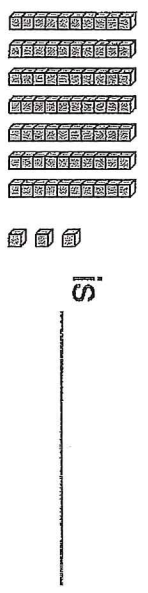

2. Compare the numbers.
Circle the number that
is less.

58 68

Word List

- compare
- greater than ($>$)
- less
- less than ($<$)
- more

3. Choose a term from the Word List. Fill in the blank to make it true.

Use Vocabulary in Writing

4. Write a problem using the terms
from the Word List. Use place-
value blocks to help solve your
problem.
